Premier™ 9D

The Advantages of the Premier 9D™ System...

It's Fast... Installing Premier 9D means you build more, with less. At 47 pounds, it's the lightest weight block per square foot ever manufactured. Premier 9D's lightweight design makes it extremely efficient to build with and one of the most cost effective solutions in the SRW industry.

It's Strong... Located on the underside of each Premier 9D block, the 4" x 1" Anchor Bar creates an automatic setback with the highest shear resistance in the industry.

It's Versatile... Premier 9D isn't just a cost effective wall system for extreme applications. It's seamless and linear appearance is an attractive solution for any type of terrain whether it's commercial, industrial, residential or governmental. Its patented design and 7° setback make Premier 9D perfect choice for any retaining wall design.
