

Country Stone®

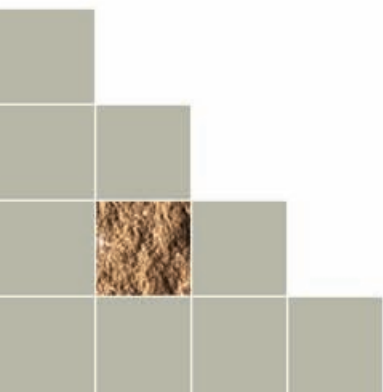

Combining functionality, performance and aesthetic appeal, Country Stone® is perfect for terraced gardens, tree rings, or low retaining walls. The unique, patented design makes it easy to create curves and shapes and it saves time by eliminating the need to clean courses. Plus, Country Stone's unique design allows you to build "vegetated walls", offering homeowners even more design flexibility.

Country Stone[®]

The Advantages of the Country Stone[®] System...

It's Fast...

Country Stone[®] is a mortarless and pinless wall system. A rear lip located on the under side of each Country Stone block ensures precise alignment and setback, eliminating guesswork and making installation easy.

It's Simple...

Weighing only 20 pounds, Country Stone is as easy to handle, as it is to install. Its size makes it perfect for any weekend project including, but not limited to, terraced gardens, tree rings, and low retaining walls.

It's Strong...

Consisting of high quality concrete, Country Stone stands up to the elements. Plus, when filled with gravel, the cores make strong, vertical "stone columns" that create a maintenance free wall for years to come.

It's Versatile...

Country Stone's unique patented design makes it easy to create curves and shapes. Plus, the radius bottom eliminates the need for cleaning courses, saving time, and hassle.

Country Stone[®] Block

Unit specifications, availability, color, and fascia options vary by manufacturer. Please contact your nearest Rockwood manufacturer or dealer for more information.

Beveled Split

Size: 4" H x 12" W x 8.5" D

100mm x 300mm x 213mm

Weight: 20 lbs., 9 kg

About the curved bottom?

The radius bottom of Country Stone eliminates the need for cleaning courses, saving time and hassle.
