The *E-Z Wall II*™ Wall

The advantages of a Rockwood Retaining Wall

Fast...

E-Z Wall II™ is a mortarless and pinless wall system. A rear lip located on the under side of each E-Z Wall II block ensures precise alignment and setback, eliminating guesswork and making installation easy.

Simple...

Weighing only 22 pounds, E-Z Wall II is as easy to handle, as it is to install. Its size makes it perfect for any weekend project including but not limited to terraced gardens, tree rings and low retaining walls.

Strong...

Consisting of high quality concrete, E-Z Wall II stands up to the elements. Plus, the integrated rear lip resists soil pressure, creating a maintenance free wall for years to come.

Versatile...

E-Z Wall II's unique patented design makes it easy to create curves and shapes. Featuring a straight split face, E-Z Wall II looks great whether the wall is a straight application or turning a curve.
