The *E-Z Wall*® Wall

The advantages of a Rockwood Retaining Wall

Fast...

E-Z Wall®, is a mortarless and pinless wall system. A rear lip located on the under side of each E-Z Wall block ensures precise alignment and setback, eliminating guesswork and making installation easy.

Simple...

Weighing only 25 pounds, E-Z Wall is as easy to handle, as it is to install. Its size makes it perfect for any weekend project including but not limited to terraced gardens, tree rings and low retaining walls.

Strong...

Consisting of high quality concrete, E-Z Wall stands up to the elements. Plus, the integrated rear lip resists soil pressure, creating a maintenance free wall for years to come.

Versatile...

E-Z Wall's unique patented design makes it easy to create curves and shapes. Featuring a straight split face, E-Z Wall looks great whether the wall is a straight application or turning a curve.

Components
