

Rockwood® Premier 6 Retaining Wall Block

ROCKWOOD®
Premier™

Premier 6 is one of the most innovative SRW products the industry has seen in its 30 year history. Its unique and patented .75 sq. ft. block design is changing the industry. Premier's 44 lb. unit weight reduces installer fatigue and beats all other block systems for strength, performance, freight efficiencies and ease of construction.

Rockwood® Premier 6 Retaining Wall Block

Pound for pound, Premier is unlike any other SRW block.

Premier 6's revolutionary block design makes it the most efficient 1 sq. ft. SRW block ever. At just 44 lbs., it beats all other block systems for freight efficiencies and ease of construction.

Features and specifications:

Dimensions: 18" W x 12" D x 6" H
Weight: 44 lbs.
Area: 0.75 sq. ft.
Setback: 0.50" (4.7°)

- Designed with Max Core™ Technology for connection strength and resistance to shear from continuous stone columns
- No cumbersome/expensive pins or clips
- Lightweight for ease of handling, reducing fatigue
- Increased freight efficiencies
- 30" max. gravity wall height, suitable for walls up to 10 ft. in height with proper engineering

Manufactured in accordance with ASTM C1372. Unit availability, color and specifications vary by manufacturer. Contact your nearest Rockwood manufacturer or dealer for more information.

Large, open cores fill quickly and easily with drainage material to form "stone-columns", adding support and stability to the wall.

Bottom, rear anchor bar creates an automatic 4.7° setback.
