

# Rockwood Sapphire Colonial Retaining Wall Blocks

Whether used as a garden terrace, raised patio, or retaining wall, Rockwood's **Sapphire™** Colonial offers the ultimate combination of style and performance. Sapphire Colonial's unique core design makes it lightweight and easy to build. At just six inches tall, Sapphire Colonial is the most practical landscape solution for retaining walls up to 4 feet. With its universal appeal and impressive building capability, Sapphire Colonial can turn an ordinary yard into the ultimate landscape.

# Rockwood Sapphire Colonial Retaining Wall Blocks

## The Advantages of the Sapphire System...

### It's Fast...

Sapphire™ Colonial is a mortarless and pinless wall system. A rear lip located on the under side of each Sapphire block ensures precise alignment and setback, eliminating guesswork and making installation easy.

### It's Simple...

Weighing only 55 pounds, Sapphire Colonial is as easy to handle as it is to install. Its size makes it perfect for any project including, but not limited to, terraced gardens, tree rings, and low retaining walls.

### It's Strong...

Consisting of high quality concrete, Sapphire Colonial stands up to the elements. Plus, when filled with gravel, the cores make strong, vertical "stone columns" that create a maintenance free wall for years to come.

### It's Versatile...

Sapphire Colonial's unique patented design makes it easy to create curves and shapes. Plus, the radius bottom eliminates the need for cleaning courses, saving time and hassle.

*Manufactured in accordance with ASTM C1372. Unit availability, color and specifications vary by manufacturer. Contact your nearest Rockwood manufacturer or dealer for more information.*

*Straight Split 18*

*Straight Split 6/12*
