

E-Z Wall™ Retaining Wall Blocks

E-Z Wall is a rear-lip block system that creates an automatic setback and alignment to easily build low retaining walls, garden walls, tree rings, egress windows and more. Use E-Z Wall to build straight walls and right angles or the wedge block create attractive radius walls. E-Z Wall blocks let you maximize land space and create beautiful garden features.

E-Z Wall™ Retaining Wall Blocks

The advantages of a Rockwood Retaining Wall...

It's Fast...

E-Z Wall™ is a mortarless and pinless wall system. A rear lip located on the under side of each E-Z Wall block ensures precise alignment and setback, eliminating guesswork and making installation easy.

It's Simple...

Weighing only 22 lbs., E-Z Wall is as easy to handle, as it is to install. Its size makes it perfect for any weekend project including but not limited to terraced gardens, tree rings and low retaining walls.

It's Strong...

Consisting of high-quality concrete, E-Z Wall stands up to the elements. Plus, the integrated rear lip resists soil pressure, creating a maintenance free wall for years to come.

It's Versatile...

E-Z Wall's unique patented design makes it easy to create curves and shapes. Featuring a straight split face, E-Z Wall looks great whether the wall is a straight application or turning a curve.

Unit availability, color and specifications vary by manufacturer. Contact your nearest Rockwood manufacturer or dealer for more information.

E-Z Wall Block
